

GIS Analysis Project

KCMC Meeting - July 20, 2010

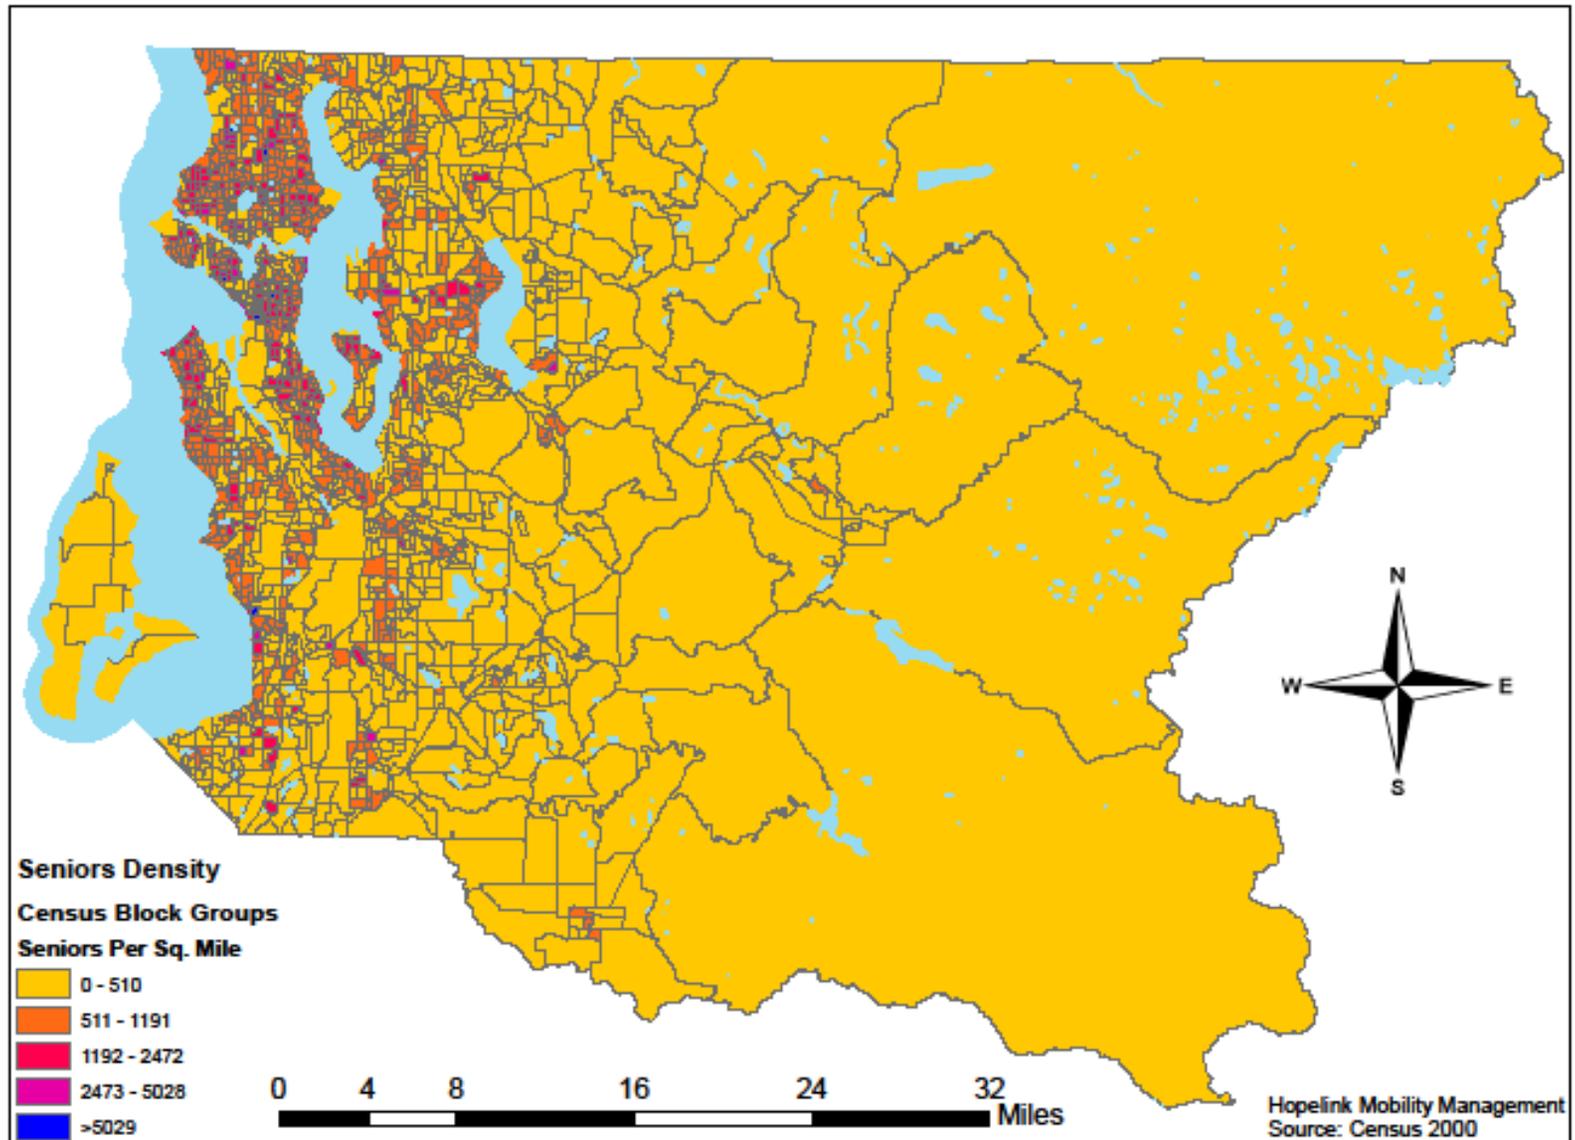

Project Goals

- ▶ Identify special needs populations
- ▶ Summarize geographic distribution
- ▶ Obtain transit service data
- ▶ Identify opportunities for improved coverage

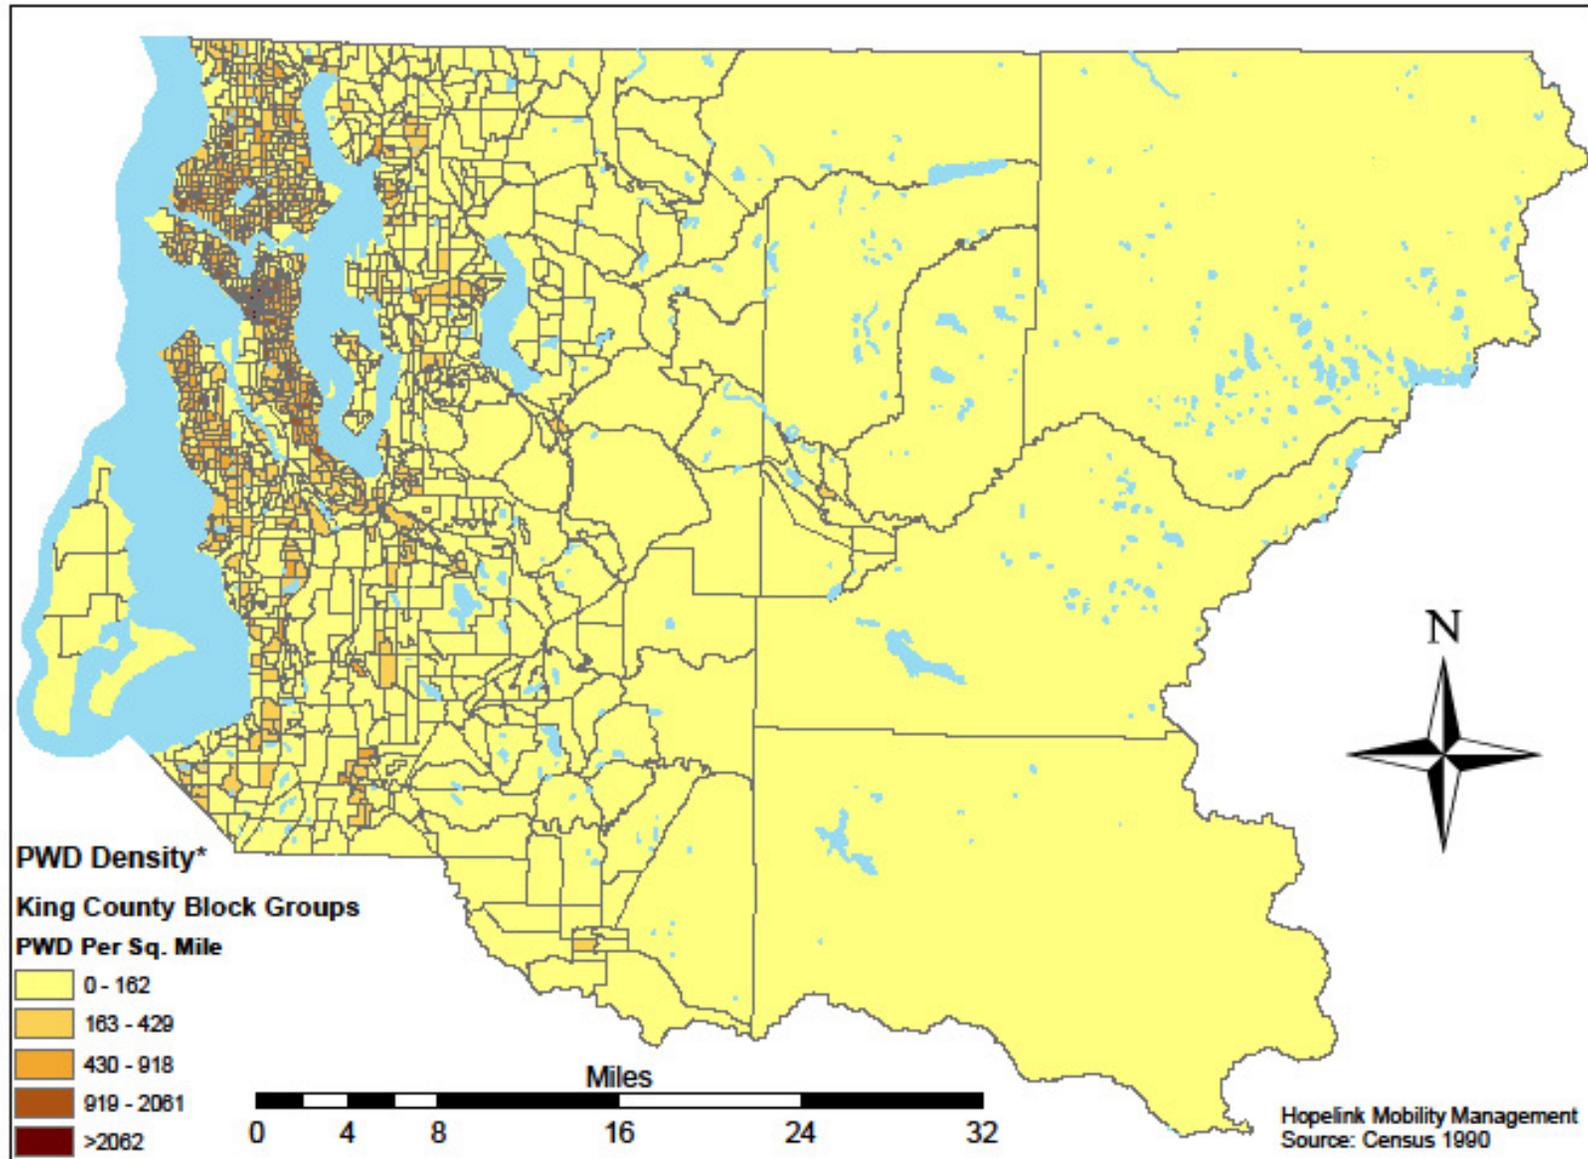

King County Individuals 65+ Years of Age, 1990

King County Individuals 65+ Years of Age Per Square Mile, 2000

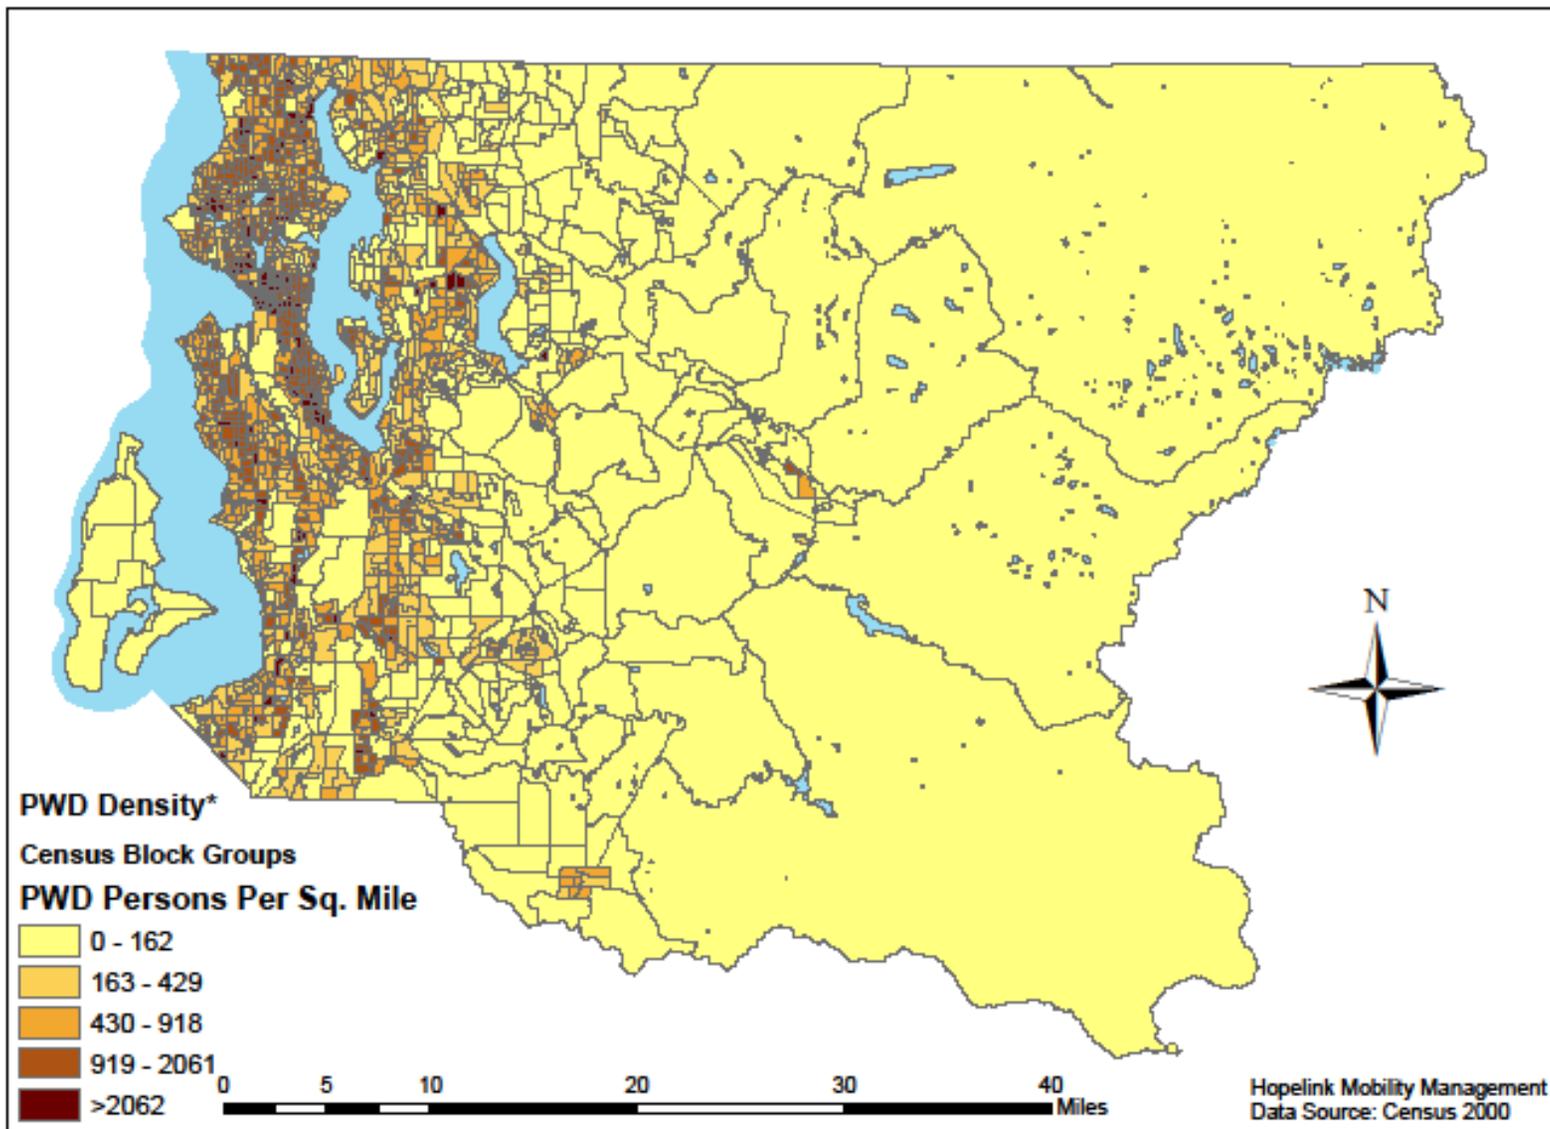

Density of Persons With Disabilities (PWD) in King County, 1990

*Data includes "Mobility Limitation," and "Self-care Limitation" disabilities.

Density of King County Persons with Disability (PWD), 2000

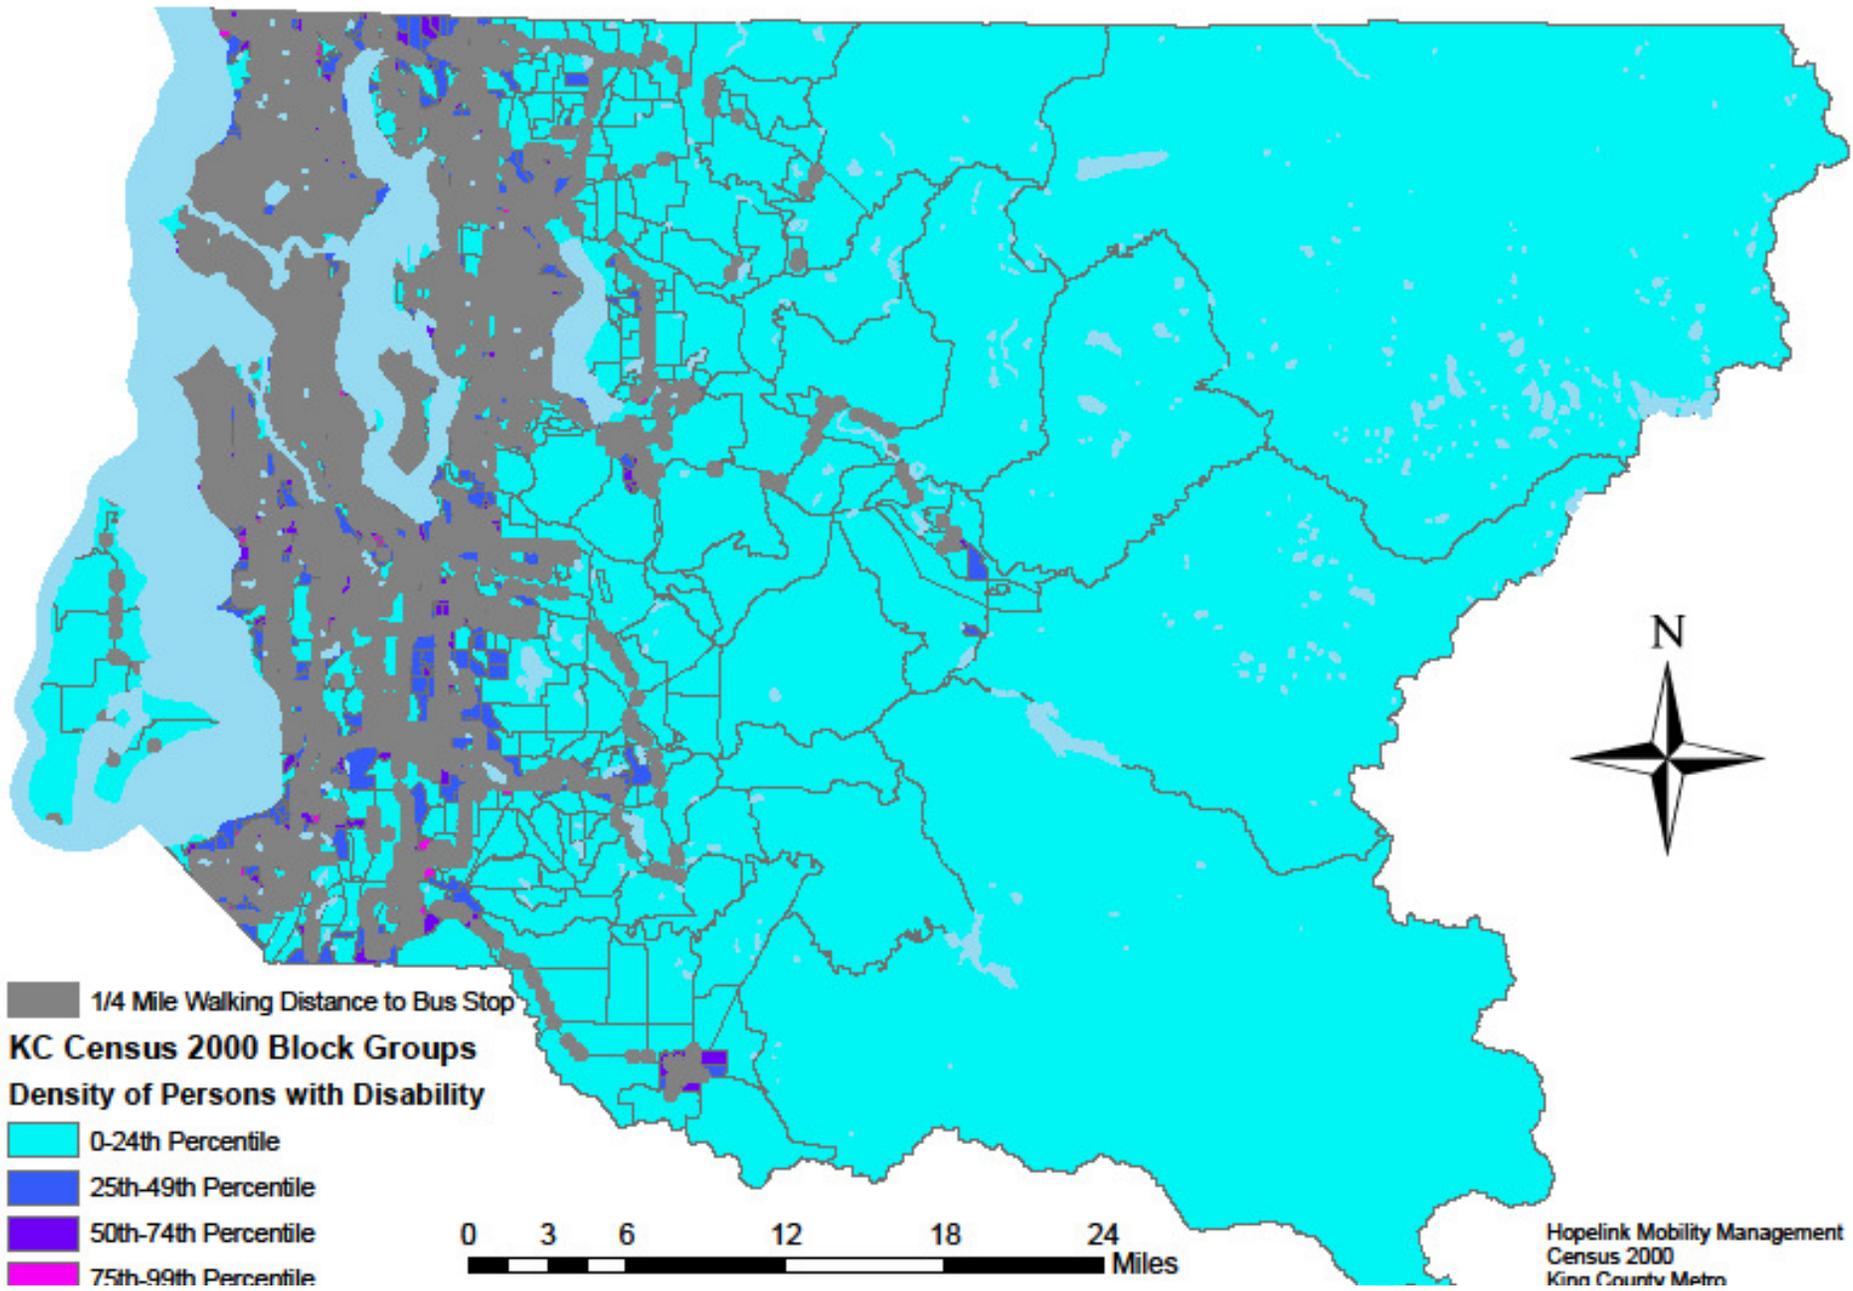

*The 2000 Census tabulates PWD populations differently than the 1990 Census. 2000 data includes "Physical," "Self-Care," and "Go-outside-home" disability.

Analysis Method

- ▶ Normalize data
- ▶ Identify service (or serviceable) area
- ▶ Determine 'high-SN' threshold
- ▶ Identify high-SN areas outside of service area

Walking Distance to Bus Stops Within King County, 2000

Questions/Comments
