Contents

EXECUTIVE SUMMARY	1
INTRODUCTION	3
Social equity	6
Geographic value	7
SECTION 1. CORRIDOR ANALYSIS	8
The analysis process	8
Results	10
Service levels and families	10
Balancing productivity, social equity and geographic value	10
Underserved and overserved corridors	12
Peak routes	16
The complete network: complementing Sound Transit	18
SECTION 2. ROUTE PERFORMANCE ANALYSIS	24
Results	25
Using the results to improve efficiency and effectiveness	26
Performance highlights	
• Routes that do not serve the Seattle core	27
• Routes that serve the Seattle core	28
SECTION 3. SERVICE QUALITY ANALYSIS	40
Passenger loads	40
Schedule reliability	42
SECTION 4. THE GUIDELINES AT WORK: THE B LINE RESTRUCTURING	46
SECTION 5. POTENTIAL CHANGES TO THE SERVICE GUIDELINES AND STRATEGIC PLAN	50
APPENDICES	51
A. Map of Low Income and Minority Census Tracts in King County	A-2
B. Map of Activity Centers	A-3
C. Peak Corridor Analysis Results	A-4
D. Routes with Poor Reliability	A-6
E. List of 2011 Service Changes	A-8
F. System Hours by Subarea	A-9
G. Master Corridor Table	A-11

Maps, tables, and graphs

Map: All-day and peak network.....	5
Table: Needed investment percentages	6
Map: Transit connections between centers.....	7
Table: Corridors with regional and activity center connections	7
Table: All-day and peak network assessment process	8
Table: Summary of typical service levels by family.....	9
Table: Hours and rides of all-day network by service family	10
Map: Corridors by service family	11
Graph: Service adequacy analysis: number of corridors with at least one period in category	12
Graph: Adequacy of service by service type for corridors	13
Table: 2011 underserved corridors and estimated hours to meet service level targets	13
Map: Underserved corridors	14
Map: Overserved corridors	15
Table: 2011 Peak route analysis results	16
Map: Peak routes that meet none or one criteria	17
Table: Corridors served primarily by Sound Transit	18
Table: Complementary Metro-Sound Transit service in a shared corridor.....	18
Graph: Metro and sound transit ridership between Issaquah and downtown Seattle	19
Table: Corridors primarily served by Metro.....	20
Table: 2011 Corridor service family and level of service summary	20
Table: Spring 2011 threshold values for route performance	25
Table: Low- and high-performing Metro routes	26
Table: Reduction priority of services in the bottom 25% of both measures	27
Table: Top performers on both performance measures, non-Seattle core.....	27
Table: Top performers connecting regional centers	28
Table: Top performers on both performance measures, Seattle core	29
Table: Top performers connecting centers within Seattle.....	29
Table: Top performers connecting Seattle and east and south King County	29
Map: Routes that do not serve the Seattle core	30
Table: Spring 2011 route performance – routes that do not serve the Seattle core	31
Map: Routes that serve the Seattle core.....	34
Table: Spring 2011 route performance: routes that serve the Seattle core	35
Table: Routes exceeding passenger load threshold.....	40
Map: Routes with overcrowding	41
Table: Routes failing reliability threshold, September 2010–August 2011	42
Map: Routes with poor on-time performance.....	41
Table: Routes with service quality issues	45
Table: Routes with service quality issues	46
Table: Routes converted to B Line	47
Table: New/improved 15-minute all-day connections on Eastside	47
Table: Improving underserved corridors on Eastside	48
Table: Peak routes deleted due to duplication	48
